UKG Pro Workforce Management Analytics

Empowering managers with actionable insights

UKG Pro Workforce Managementᴬ Analytics (formerly UKG Dimensions® Analytics) delivers insights instantly to your frontline and operational people managers so they can confidently make impactful labor decisions backed by data. Easily identify, manage, and optimize opportunities for labor cost savings and productivity, with KPIs, metrics, and thresholds that help your teams stay on track with your business goals in real time.

Personalized business indicators

KPIs, metrics, and thresholds help your people managers align to business goals in real time so they can make impactful labor decisions confidently, minimizing labor costs and maximizing productivity.

Actionable insights

Simple, easy-to-read visualizations help people managers understand what actions they need to take to course-correct and avert potential issues before they happen — all at a glance.

Workforce data made simpler

All of the precalculated data is delivered right in UKG Pro, bringing a user-friendly and consistent data delivery experience for your frontline and operational managers.
